Run for your life!

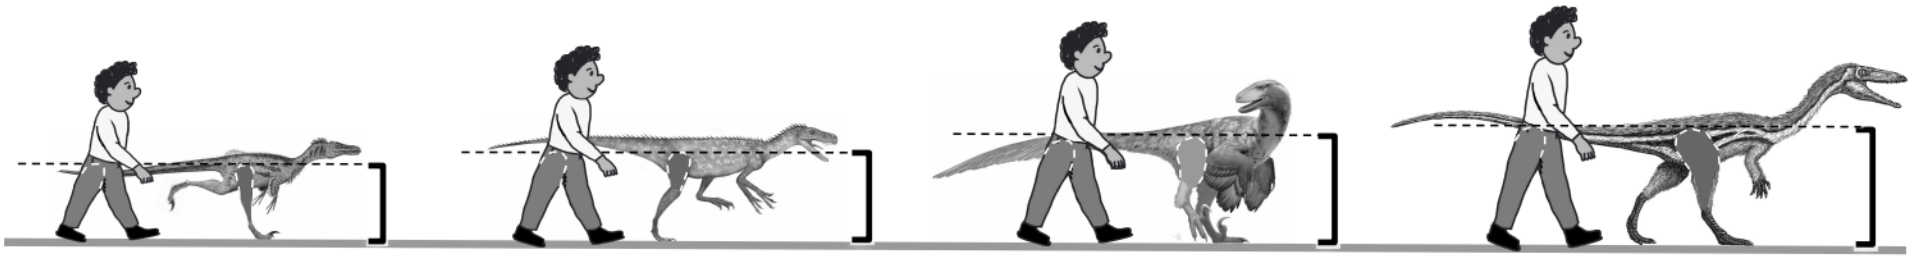
Mystery science
Can you outrun a dinosaur?

Name: _____

Find out which dinosaur you'll race:

1. Calculate your leg length: (_____ x 30 cm) + _____ cm = _____**cm**
   number of whole ruler lengths

2. Circle the dinosaur that's your leg length or **less**:



VeeLo
(Velociraptor)
Leg length: about **51** cm

SanJuan
(*Sanjuansaurus)*
Leg length: about **64** cm

DeeNo
(Deinonychus)
Leg length: about **76** cm

CeeLo
(*Coelophysis)*
Leg length: about **89** cm

Remember how to race:
