

## Lesson: What does your shadow do when you're not looking?

---

|                 |   |
|-----------------|---|
| <b>light</b>    | what comes from the Sun and lamps and makes it possible to see things |
| <b>position</b> | the place where something is, such as behind or in front              |
| <b>shadow</b>   | a dark shape made when an object is in front of a light source        |
