

Mystery Science Alignment with Georgia Standards of Excellence (GSE)

Mystery Science - Georgia Standards of Excellence Alignment

Mystery Science aligns to the new 2017 Georgia Standards of Excellence. Each lesson (exploration & activity) is designed to take one hour per week. To view each lesson's alignment to three-dimensional learning (disciplinary core ideas, science and engineering practices, and crosscutting concepts) view our [NGSS Alignment](#) document. Mini-lessons are 5-minute videos that answer K-5 student questions and can be used as a jumping off point to engage learners for a full lesson planned by the teacher.

Lesson Extensions. Extensions are available for each lesson and offer an opportunity for students to continue their science content learning. They include assessments and a curated collection of additional activity suggestions, online resources, project ideas, and readings to help extend the learning.

Table of Contents

Kindergarten	Life Science	Earth & Space Science	Physical Science
Grade 1	Life Science	Earth & Space Science	Physical Science
Grade 2	Life Science	Earth & Space Science	Physical Science
Grade 3	Life Science	Earth & Space Science	Physical Science
Grade 4	Life Science	Earth & Space Science	Physical Science
Grade 5	Life Science	Earth & Space Science	Physical Science

Kindergarten

Mystery Science aligns to the new 2017 Georgia Standards of Excellence. Each lesson (exploration & activity) is designed to take one hour per week. Extensions can expand upon each lesson. To view each lesson's alignment to 3 dimensional learning (disciplinary core ideas, science and engineering practices, and crosscutting concepts) view our [NGSS Alignment](#) document. Mini-lessons are 5-minute videos that answer K-5 student questions and can be used as a jumping off point to engage learners for a full lesson planned by the teacher.

Strand	Topic	Science Georgia Standards of Excellence (GSE)	Mystery Science Unit	Mystery Science Lessons
Life Science	Living vs. Non-living	SKL1. Obtain, evaluate, and communicate information about how organisms (alive and not alive) and non-living objects are grouped		<i>Georgia specific standard</i>
	Plant and Animal features	SKL2. Obtain, evaluate, and communicate information to compare the similarities and differences in groups of organisms.	Plant & Animal Superpowers Mini-lessons	Lesson 1: Why do birds have beaks? Lesson 2, Read Along: Why do baby ducks follow their mother? Lesson 3: Why are polar bears white? Lesson 4, Read Along: Why do family members look alike? Lesson 5: Why don't trees blow down in the wind? Lesson 6, Read Along: What do sunflowers do when you're not looking? Mini-lesson: Why are butterflies so colorful?
Earth and Space Science	Sky patterns and objects	SKE1. Obtain, evaluate, and communicate observations about time patterns (day to night and night to day) and objects (sun, moon, stars) in the day and night sky.	Spinning Sky Mini-lessons	Lesson 1: Could a statue's shadow move? Lesson 2, Read Along: What does your shadow do when you're not looking? Lesson 3: How can the sun help you if you're lost? Lesson 4, Read Along: Why do you have to go to bed early in the summer? Mini-lesson: How close could an astronaut get to the sun? Mini-lesson: What would it be like to live on the moon? Mini-lesson: What is the moon made of? Mini-lesson: How dangerous is it to look at the sun?
	Attributes of rocks, soil, water, & air	SKE2. Obtain, evaluate, and communicate information to describe the physical attributes of earth materials (soil, rocks, water, and air).	Mini-lessons	Mini-lesson: Why does this rock look like a sponge? Mini-lesson: Why is the ocean salty? Mini-lesson: How deep does the ocean go?

** Indicates a mini-lesson with an included hands-on STEAM activity from Mystery Science.

Kindergarten, continued

Mystery Science aligns to the new 2017 Georgia Standards of Excellence. Each lesson (exploration & activity) is designed to take one hour per week. Extensions can expand upon each lesson. To view each lesson's alignment to 3 dimensional learning (disciplinary core ideas, science and engineering practices, and crosscutting concepts) view our [NGSS Alignment](#) document. Mini-lessons are 5-minute videos that answer K-5 student questions and can be used as a jumping off point to engage learners for a full lesson planned by the teacher.

Strand	Topic	Science Georgia Standards of Excellence (GSE)	Mystery Science Unit	Mystery Science Lessons
Physical Science	Materials and physical properties	SKP1. Obtain, evaluate, and communicate information to describe objects in terms of the materials they are made of and their physical attributes.	Weather Watching	Lesson 5: How could you warm up a frozen playground? Lesson 6: How could you walk barefoot across hot pavement without burning your feet?
	Motion	SKP2. Obtain, evaluate, and communicate information to compare and describe different types of motion.	Force Olympics	Lesson 1: What's the biggest excavator? Lesson 2, Read Along: Why do builders need so many machines? Lesson 3: How can you knock down a wall made of concrete? Lesson 4, Read Along: How can you knock down the most bowling pins? Lesson 5: How can we protect a mountain town from falling rocks? Lesson 6, Read Along: How could you invent a trap?

Grade 1

Mystery Science aligns to the new 2017 Georgia Standards of Excellence. Each lesson (exploration & activity) is designed to take one hour per week. Extensions can expand upon each lesson. To view each lesson's alignment to 3 dimensional learning (disciplinary core ideas, science and engineering practices, and crosscutting concepts) view our [NGSS Alignment](#) document. Mini-lessons are 5-minute videos that answer K-5 student questions and can be used as a jumping off point to engage learners for a full lesson planned by the teacher.

Strand	Topic	Science Georgia Standards of Excellence (GSE)	Mystery Science Unit	Mystery Science Lessons
Life Science	Needs of plants and animals	S1L1. Obtain, evaluate, and communicate information about the basic needs of plants and animals.	Plant & Animal Secrets	Lesson 1: Why do woodpeckers peck wood? Lesson 2, Read Along: Where do animals live? Lesson 3: How can you find animals in the woods? Lesson 4, Read Along: How do animals make their homes in the forest? Lesson 5: How do plants and trees grow? Lesson 6, Read Along: Why would you want an old log in your backyard?
Earth and Space Science	Weather data and patterns	S1E1. Obtain, evaluate, and communicate weather data to identify weather patterns.	Weather Watching	Lesson 1: Have you ever watched a storm? Lesson 2, Read Along: How can you get ready for a big storm? Lesson 3: What will the weather be like on your birthday? Lesson 4, Read Along: How do you know what to wear for the weather?
Physical Science	Light and Sound	S1P1. Obtain, evaluate, and communicate information to investigate light and sound.	Lights & Sounds	Lesson 1: How do they make silly sounds in cartoons? Lesson 2, Read Along: Where do sounds come from? Lesson 3: What if there were no windows? Lesson 4, Read Along: Can you see in the dark? Lesson 5: How could you send a secret message to someone far away? Lesson 6, Read Along: How do boats find their way in the fog?
	Magnets	S1P2. Obtain, evaluate, and communicate information to demonstrate the effects of magnets on other objects.	Invisible Forces *	Lesson 4: What can magnets do? Lesson 5: How can you unlock a door using a magnet?

* [Invisible Forces](#) was designed to align to Grade 3 NGSS. Expect this unit to be a challenge for students.

Grade 2

Mystery Science aligns to the new 2017 Georgia Standards of Excellence. Each lesson (exploration & activity) is designed to take one hour per week. Extensions can expand upon each lesson. To view each lesson's alignment to 3 dimensional learning (disciplinary core ideas, science and engineering practices, and crosscutting concepts) view our [NGSS Alignment](#) document. Mini-lessons are 5-minute videos that answer K-5 student questions and can be used as a jumping off point to engage learners for a full lesson planned by the teacher.

Strand	Topic	Science Georgia Standards of Excellence (GSE)	Mystery Science Unit	Mystery Science Lessons
Life Science	Life Cycles	S2L1. Obtain, evaluate, and communicate information about the life cycles of different living organisms.	Plant Adventures	Lesson 1: How did a tree travel halfway around the world?
			Power of Flowers	Lesson 1: Why do plants grow flowers? Lesson 2: Why do plants give us fruit?
			Mini-lessons	Mini-lesson: Why do leaves change color in the fall?*** Mini-lesson: How do flowers bloom in the spring?***
Earth and Space Science	Stars size/ brightness	S2E1. Obtain, evaluate, and communicate about stars having different sizes and brightness.	Spinning Sky	Lesson 5: Why do the stars come out at night? Lesson 6, Read Along: How can stars help you if you get lost?
	Patterns of the sun & moon & sun's effect on Earth	S2E2. Obtain, evaluate, and communicate information to develop an understanding of the patterns of the sun and the moon and the sun's effect on Earth.	Mini-lessons	Mini-lesson: Why does the moon turn blood red during a lunar eclipse? Mini-lesson: How often do eclipses happen?
	Changes to the environment	S2E3. Obtain, evaluate, and communicate information about how weather, plants, animals, and humans cause changes to the environment.	Work of Water Mini-lessons	Lesson 3: What's strong enough to make a canyon? Lesson 4: How can you stop a landslide? Mini-lesson: How do earthquakes happen?

*** Indicates a mini-lesson with an included hands-on STEAM activity from Mystery Science.

Grade 2, continued

Mystery Science aligns to the new 2017 Georgia Standards of Excellence. Each lesson (exploration & activity) is designed to take one hour per week. Extensions can expand upon each lesson. To view each lesson's alignment to 3 dimensional learning (disciplinary core ideas, science and engineering practices, and crosscutting concepts) view our [NGSS Alignment](#) document. Mini-lessons are 5-minute videos that answer K-5 student questions and can be used as a jumping off point to engage learners for a full lesson planned by the teacher.

Strand	Topic	Science Georgia Standards of Excellence (GSE)	Mystery Science Unit	Mystery Science Lessons
Physical Science	Properties of Matter	S2P1. Obtain, evaluate, and communicate information about the properties of matter and changes that occur in objects.	Material Magic Mini-lessons	Lesson 1: Why do we wear clothes? Lesson 2: Can you really fry an egg on a hot sidewalk? Lesson 3: Why are so many toys made out of plastic? Lesson 4: What materials might be invented in the future? Lesson 5: Could you build a house out of paper? Mini-lesson: How is glass made? Mini-lesson: How is plastic made? Mini-lesson: Where does metal come from?
	Force & Motion	S2P2. Obtain, evaluate, and communicate information to explain the effect of a force (a push or a pull) in the movement of an object (changes in speed and direction).	Energizing Everything*	Lesson 1: How is your body similar to a car? Lesson 2: What makes roller coasters go so fast? Lesson 3: Why is the first hill of a roller coaster always the highest? Lesson 4: Could you knock down a building using only dominoes? Lesson 5: Can you build a chain reaction machine?

* [Energizing Everything](#) was designed to align to Grade 4 NGSS. Expect this unit to be a challenge for students.

Grade 3

Mystery Science aligns to the new 2017 Georgia Standards of Excellence. Each lesson (exploration & activity) is designed to take one hour per week. Extensions can expand upon each lesson. To view each lesson's alignment to 3 dimensional learning (disciplinary core ideas, science and engineering practices, and crosscutting concepts) view our [NGSS Alignment](#) document. Mini-lessons are 5-minute videos that answer K-5 student questions and can be used as a jumping off point to engage learners for a full lesson planned by the teacher.

Strand	Topic	Science Georgia Standards of Excellence (GSE)	Mystery Science Unit	Mystery Science Lessons
Life Science	Habitats and Heredity	S3L1. Obtain, evaluate, and communicate information about the similarities and differences between plants, animals, and habitats found within geographic regions (Blue Ridge Mountains, Piedmont, Coastal Plains, Valley and Ridge, and Appalachian Plateau) of Georgia.	Animal Adventures Plant Adventures Mini-lessons	Lesson 1: How many different kinds of animals are there? Lesson 2: Why do frogs say "ribbit"? Lesson 3: How could you get more birds to visit a bird feeder? Lesson 2: Could a plant survive without light? Lesson 3: Why do trees grow so tall? Lesson 4: Should you water a cactus? Lesson 5: Where do plants grow best? Mini-lesson: What's the biggest spider in the world?**
	Effects of pollution and humans on the environment	S3L2. Obtain, evaluate, and communicate information about the effects of pollution (air, land, and water) and humans on the environment.	Animals Through Time	Lesson 7: What's the best way to get rid of mosquitoes?
Earth and Space Science	Physical attributes of rocks and soil	S3E1. Obtain, evaluate, and communicate information about the physical attributes of rocks and soils.	Work of Water	Lesson 1: If you floated down a river, where would you end up? Lesson 2: Why is there sand at the beach?
	Fossils	S3E2. Obtain, evaluate, and communicate information on how fossils provide evidence of past organisms.	Animals Through Time	Lesson 1: Where can you find whales in a desert? Lesson 2: How do we know what dinosaurs looked like? Lesson 3: Can you outrun a dinosaur?
Physical Science	Heat Energy	S3P1. Obtain, evaluate, and communicate information about the ways heat energy is transferred and measured.	Energizing Everything	Lesson 7: How long did it take to travel across the country before cars & planes?

** Indicates a mini-lesson with an included hands-on STEAM activity from Mystery Science.

Grade 4

Mystery Science aligns to the new 2017 Georgia Standards of Excellence. Each lesson (exploration & activity) is designed to take one hour per week. Extensions can expand upon each lesson. To view each lesson's alignment to 3 dimensional learning (disciplinary core ideas, science and engineering practices, and crosscutting concepts) view our [NGSS Alignment](#) document. Mini-lessons are 5-minute videos that answer K-5 student questions and can be used as a jumping off point to engage learners for a full lesson planned by the teacher.

Strand	Topic	Science Georgia Standards of Excellence (GSE)	Mystery Science Unit	Mystery Science Lessons
Life Science	Ecosystems	S4L1. Obtain, evaluate, and communicate information about the roles of organisms and the flow of energy within an ecosystem.	Web of Life	Lesson 1: Why would a hawk move to New York City? Lesson 2: What do plants eat? Lesson 3: Where do fallen leaves go? Lesson 4: Do worms really eat dirt? Lesson 5: Why do you have to clean a fish tank but not a pond? Lesson 6: Why did the dinosaurs go extinct?
Earth and Space Science	Attributes of stars & planets	S4E1. Obtain, evaluate, and communicate information to compare and contrast the physical attributes of stars and planets.	Spaceship Earth	Lesson 1: How fast does the Earth spin? Lesson 2: Who set the first clock? Lesson 3: Why do the stars change with the seasons? Lesson 4: How can the sun tell you the season? Lesson 5: Why does the moon change shape? Lesson 6: What are wandering stars? Lesson 7: Why is gravity different on other planets? Lesson 8: Could there be life on other planets?
	Earth, Moon, & Sun	S4E2. Obtain, evaluate, and communicate information to model the effects of the position and motion of the Earth and the moon in relation to the sun as observed from the Earth.		
	Water cycle	S4E3. Obtain, evaluate and communicate information to demonstrate the water cycle.	Watery Planet	Lesson 1: How much water is in the world? Lesson 2: When you turn on your faucet, where does the water come from? Lesson 3: Can we make it rain? Lesson 4: How can you save a town from a hurricane? Lesson 1: Where do clouds come from? Lesson 2: How can we predict when it's going to storm? Lesson 3: Why are some places always hot? Lesson 4: How can you keep a house from blowing away in a windstorm?
	Weather, data, patterns, & events	S4E4. Obtain, evaluate, and communicate information to predict weather events and infer weather patterns using weather charts/maps and collected weather data.	Stormy Skies	

Grade 4, continued

Mystery Science aligns to the new 2017 Georgia Standards of Excellence. Each lesson (exploration & activity) is designed to take one hour per week. Extensions can expand upon each lesson. To view each lesson's alignment to 3 dimensional learning (disciplinary core ideas, science and engineering practices, and crosscutting concepts) view our [NGSS Alignment](#) document. Mini-lessons are 5-minute videos that answer K-5 student questions and can be used as a jumping off point to engage learners for a full lesson planned by the teacher.

Strand	Topic	Science Georgia Standards of Excellence (GSE)	Mystery Science Unit	Mystery Science Lessons
Physical Science	Nature of light	S4P1. Obtain, evaluate, and communicate information about the nature of light and how light interacts with objects.	Human Machine Mini-lesson	Lesson 2: What do people who are blind see? Lesson 3: How can some animals see in the dark? Mini-lesson: Why is snow white?** Mini-lesson: How is a rainbow made?**
	Sound & communication	S4P2. Obtain, evaluate, and communicate information about how sound is produced and changed and how sound and/or light can be used to communicate.	Waves of Sound	Lesson 1: How far can a whisper travel? Lesson 2: What would happen if you screamed in outer space? Lesson 3: Why are some sounds high and some sounds low?
	Balanced/unbalanced forces	S4P3. Obtain, evaluate, and communicate information about the relationship between balanced and unbalanced forces.	Invisible Forces Mini-lesson	Lesson 1: How could you win a tug-of-war against a bunch of adults? Lesson 2: What makes bridges so strong? Lesson 3: How can you go faster down a slide? Mini-lesson: Why can't airplanes fly to space?**

** Indicates a mini-lesson with an included hands-on STEAM activity from Mystery Science.

Grade 5

Mystery Science aligns to the new 2017 Georgia Standards of Excellence. Each lesson (exploration & activity) is designed to take one hour per week. Extensions can expand upon each lesson. To view each lesson's alignment to 3 dimensional learning (disciplinary core ideas, science and engineering practices, and crosscutting concepts) view our [NGSS Alignment](#) document. Mini-lessons are 5-minute videos that answer K-5 student questions and can be used as a jumping off point to engage learners for a full lesson planned by the teacher.

Strand	Topic	Science Georgia Standards of Excellence (GSE)	Mystery Science Unit	Mystery Science Lessons
Life Science	Classification	S5L1. Obtain, evaluate, and communicate information to group organisms using scientific classification.		<i>Georgia specific standard</i>
	Inherited vs. Acquired Traits	S5L2. Obtain, evaluate, and communicate information showing that some characteristics of organisms are inherited and other characteristics are acquired.	Animals Through Time Power of Flowers Human Machine Mini-lessons	Lesson 4: What kinds of animals might there be in the future? Lesson 5: Can selection happen without people? Lesson 6: Why do dogs wag their tails? Lesson 8: How long can people (and animals) survive in outer space? Lesson 3: Why are some apples red and some green? Lesson 4: How could you make the biggest fruit in the world? Lesson 1: Why do your biceps bulge? Lesson 4: How does your brain control your body? Mini-lesson: Why are pumpkins orange? Mini-lesson: Why do birds lay eggs in the spring? Mini-lesson: Where do bugs go in winter? Mini-lesson: Why do animals come back after going to warm places in the winter?
	Plants vs. Animal cells	S5L3. Obtain, evaluate, and communicate information to compare and contrast the parts of plant and animal cells.		<i>Georgia specific standard</i>
	Micro-organisms	S5L4. Obtain, evaluate, and communicate information about how microorganisms benefit or harm larger organisms.	Mini-lessons	Mini-lesson: How does hand sanitizer kill germs? Mini-lesson: What is the most dangerous animal in the world?

* [Animals Through Time](#) and [Power of Flowers](#) were designed to align to grade 3 NGSS, but can be taught in grade 5 with modifications.

Grade 5, continued

Mystery Science aligns to the new 2017 Georgia Standards of Excellence. Each lesson (exploration & activity) is designed to take one hour per week. Extensions can expand upon each lesson. To view each lesson's alignment to 3 dimensional learning (disciplinary core ideas, science and engineering practices, and crosscutting concepts) view our [NGSS Alignment](#) document. Mini-lessons are 5-minute videos that answer K-5 student questions and can be used as a jumping off point to engage learners for a full lesson planned by the teacher.

Strand	Topic	Science Georgia Standards of Excellence (GSE)	Mystery Science Unit	Mystery Science Lessons
Earth and Space Science	Earth's processes	S5E1. Obtain, evaluate, and communicate information to identify surface features on the Earth caused by constructive and/or destructive processes.	Birth of Rocks	Lesson 1: Could a volcano pop up where you live? Lesson 2: Why do some volcanoes explode? Lesson 3: Will a mountain last forever? Lesson 4: How could you survive a landslide?
Physical Science	Physical & Chemical Changes	S5P1. Obtain, evaluate, and communicate information to explain the differences between a physical change and a chemical change.	Chemical Magic	Lesson 1: Are magic potions real? Lesson 2: Could you transform something worthless into gold? Lesson 3: What would happen if you drank a glass of acid? Lesson 4: What do fireworks, rubber, and silly putty have in common? Lesson 5: Why do some things explode?
	Electricity	S5P2. Obtain, evaluate, and communicate information to investigate electricity	Energizing Everything Mini-lessons	Lesson 6: What if there were no electricity? Lesson 8: Where does energy come from? Mini-lesson: How do batteries work?
	Electro-magnets	S5P3. Obtain, evaluate, and communicate information about magnetism and its relationship to electricity.		<i>Georgia specific standard</i>
