

## Lesson: How could you survive a landslide?

---

<b>brainstorm</b>	to come up with many new questions or ideas about something
<b>engineer</b>	a person who uses science to come up with solutions to problems
<b>erosion</b>	when tiny bits of rock are moved from one location to another by water, wind, ice, or gravity
<b>landslide</b>	when lots of rocks and soil roll down from a cliff or mountain
<b>natural hazard</b>	an event in nature (such as a landslide, earthquake, hurricane, or wildfire) that can be dangerous to living things
<b>slope</b>	how much higher one side is than the other
<b>steep</b>	something that is very high up on one end and very low at the other end
