

# Hi there,

You can use this slide deck to host a 30-minute training session for teachers.

Just complete **2 quick steps** before the session.

# Before the training

1. Get your school's **join link** to share with teachers.

*What is a join link? This custom link allows teachers to instantly join your school's Mystery Science account.*

*Don't have the link? No problem! Ask your administrator for your school or district's join link, or simply head over to [mysteryscience.com](https://mysteryscience.com) to make an account.*

# Before the training

1. Get your school's join link to share with teachers.

2. **Email your colleagues** to invite them to the training session.

*See the next slide for an email template  
you can copy, paste & adapt!*

# Email template

Hi fellow teachers,

I'll be sharing why I use Mystery Science at our upcoming meeting on **[INSERT DATE/TIME/LOCATION]**. I'd love to help you get started with this easy, engaging resource!

Before the training, please join our school's Mystery Science account by clicking on this link: **[INSERT THE JOIN LINK]**.

Please bring your laptop to the meeting so we can get you set up and ready to teach!

# You're all set!

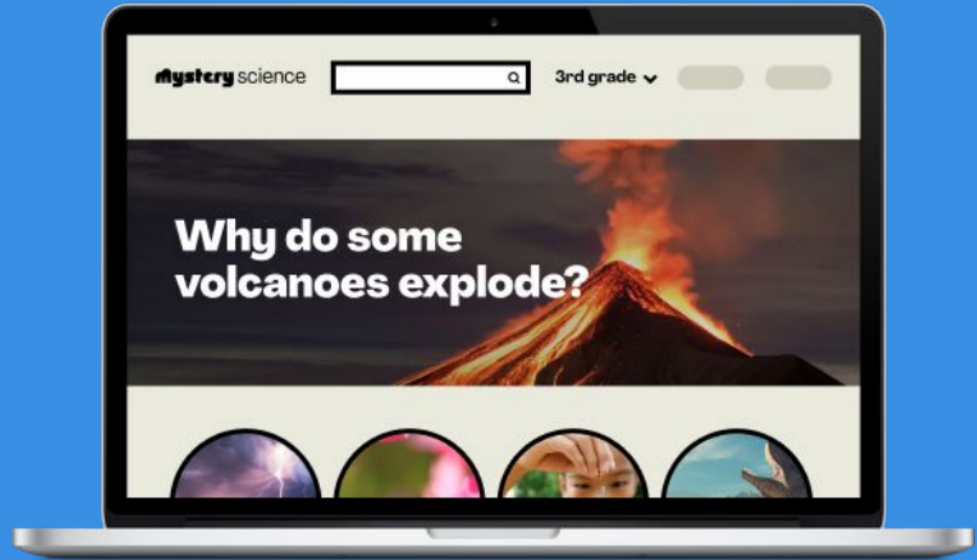

The next slide is the start of the training presentation.

Share your screen and have fun!

An introduction to

# Mystery Science

# Agenda

1. What is Mystery Science?
2. How can I get started?
3. What are some quick tips?
4. Ready to explore on your own?

**What is Mystery  
Science?**

Open-and-go  
lessons  
that inspire  
kids to love  
science

The screenshot shows the Mystery Science website interface. At the top right is the logo "mystery science". Below it is a search bar containing the text "Try 'spring'" and a magnifying glass icon. To the right of the search bar are navigation links: "3rd Grade", "Curiosity Jar", "Help", and "Account". Below the search bar is a greeting "Hi! Let's pick a lesson!" followed by two buttons: "Science Units" and "Mini-lessons". The main content area features a large banner with a shark fin cutting through the water. The text on the banner reads "K-5 Mini-Lesson" and "Do sharks really want to eat people?". Below this text is a "View lesson" button. At the bottom of the page, there is a section titled "3rd Grade Science Units" with a "See all" link. This section displays four circular cards representing different science units: "Animals Through Time" (7 lessons), "Circle of Life" (3 lessons), "Power of Flowers" (4 lessons), and "Stormy Skies" (5 lessons). A "Support" button is visible in the bottom right corner.

# Hands-on science made easy

**Engaging, interactive  
lessons kids love**

**Easy-prep  
hands-on activities**

**Standards-aligned  
science units**

# Science units

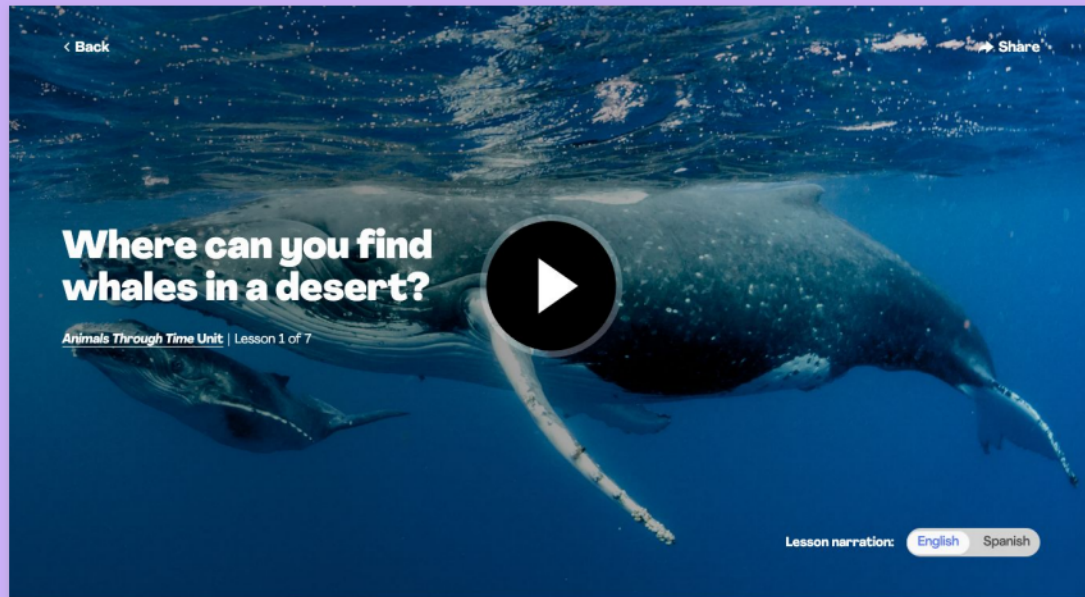

- 4-6 units per grade
- Each unit has 3-8 lessons
- Standards-aligned

The screenshot shows the Mystery Science website interface. At the top right, the logo "mystery science" is displayed. Below it, there is a search bar containing the text "Try 'spring'", and navigation links for "3rd Grade", "Curiosity Jar", "Help", and "Account". A "Back" link is visible on the left. The main heading is "Science Units", with a horizontal menu below it listing categories: "Fossils, Animal Survival, & Heredity", "Life Cycles", "Plant Life Cycle & Heredity", "Weather & Climate", and "Forces, Motion, & Magnets". The "Life Cycles" category is selected, leading to a large banner image of a monarch butterfly's life cycle stages: egg, larva, pupa, and adult butterfly. The banner includes a "NOSS" logo and the title "Circle of Life". Below the banner is a "Standards & Prep" dropdown menu. The main content area features three lesson cards:

- Lesson 1:** "Animal Life Cycles" (3rd grade) with the question "How is your life like an alligator's life?". It is marked as "NEW!" and includes "Lesson + Activity" and "Standards Aligned" icons.
- Lesson 2:** "Environmental Change & Engineering" (3rd grade) with the question "What's the best way to get rid of mosquitoes?". It includes "Lesson + Activity" and "Standards Aligned" icons.
- Lesson 3:** "Plant Life Cycles" (3rd grade) with the question "Why are there so many different kinds of flowers?". It is marked as "NEW!" and includes "Lesson + Activity" and "Standards Aligned" icons.

# Lessons

- Take 45-60 min to teach
- Video exploration & discussion
- Hands-on activities with step-by-step video instructions
- Simple supplies for easy prep

## Activity Prep

Print Prep

In this lesson, students explore the idea that the rock under our feet sometimes contains fossils, and investigate how these fossils reveal changes in habitat through time. In the activity, Fossil Dig, students use paper to create a model fossil dig. They identify traits of fossils to determine what the habitat looked like when these organisms were alive. Then they use this information to figure out where some Mystery Fossils belong in their fossil dig.

	<b>Exploration</b> 10 mins
	<b>Hands-On Activity</b> 30 mins
	<b>Wrap-Up</b> 10 mins

# Mini-lessons

- 5-10 minutes long
- Discussion questions
- New mini-lesson each week
- Over 150 lessons in the archive

Science features...**

# Spanish Resources

- Spanish narration for every lesson
- Spanish versions of printable and digital worksheets & assessments
- Spanish transcripts of each lesson

# Vocabulary Resources

- Visual slideshows with images and videos pulled directly from the lesson
- Teacher printouts with terms and definitions
- Available in English and Spanish!

**predator**  
an animal that hunts and eats other animals

**predator**  
an animal that hunts and eats other animals

**prey**  
an animal that is hunted by and eaten by another animal

**carnivore**  
an animal that eats only other animals

**herbivore**  
an animal that only eats plants

# Anchor Layer

- Adds 2 lessons to each unit
- 60–90 minutes per lesson
- Starts with an Anchor Phenomenon
- Project-based performance layer task

**Science Units**

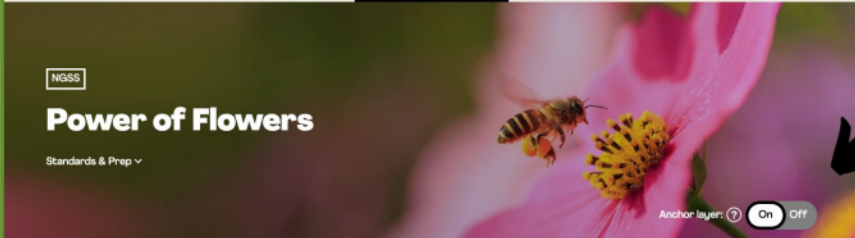

Fossils, Animal Survival, & Heredity
Life Cycles
Plant Life Cycle & Heredity
