

Lesson: Where's the best place to build a snow fort?

Celsius	one way to measure temperature; water freezes at 0 degrees Celsius
data	recorded measurements or observations
degree	a unit of measurement, such as for temperature
Fahrenheit	one way to measure temperature; water freezes at 32 degrees Fahrenheit
freeze	when a liquid turns into a solid, such as when water turns to ice
freezing point	the temperature when water starts to turn from liquid water into solid ice
measure	to describe something using numbers that can be compared
pattern	something that happens again and again and again in a way that can be predicted
predict	to guess what will happen based on things you know
season	a time of year with specific weather that repeats every year
snow	solid water that falls from the sky when it's very cold outside
snowstorm	a storm with lots of snow and usually strong winds
storm	weather that usually includes strong wind and rain or snow

Lesson: Where's the best place to build a snow fort?

summer	one of the four seasons, the warmest season in some places
temperature	how hot or cold something is
thermometer	a tool that measures temperature
weather	what the air is like in a particular time and place, including things like temperature, wind, and rain
winter	one of the four seasons, the coldest season in some places
