2. Where can the bighorn sheep find the most food? (Circle your answer)

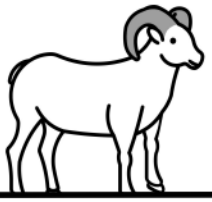
DESERT **PARK**

3. Where can the bighorn sheep hide from predators? (Circle your answer)

DESERT **PARK**

4. Why do you think the bighorn sheep go back to the desert habitat at night?

The desert habitat provides the bighorn sheep with more places to hide from predators, like coyotes or cougars. When they sleep at night, it's more important for the bighorn sheep to be in a habitat that provides safety.



The Mystery of the Bighorn Sheep in the Park
