Vocabulary

Lesson: How can you unlock a door using a magnet?

attract	to pull toward
design	to make a plan for creating or doing something
engineer	a person who uses science to come up with solutions to problems
magnet	an object that can attract or repel certain materials, often metals
model	a pretend version of something that scientists use when the real thing is too big, small, or complicated to work with
observe	to pay close attention to something
property	something you can observe about an object or material
repel	to push away, such as when two magnets with the same poles face each other
