Stormy Skies
Performance Task

Name: _____

Future Hailstorm Prediction

Directions: Use the hailstorm data from last year to make predictions for next year.

1. Use the hailstorm data you studied to make a prediction for next year. In which two seasons and in which zone do you think your design will be needed the most?

   Next year, I think my design will be needed the most during the seasons

   of _____ and _____, and in zone ____.

2. Why do you think your design will be needed most in that zone during those seasons? Be sure to use data in your answer!

   I think this because last year, _____

   _____

   _____.

3. In which season and in which zone do you think your design will be needed the **least**? Why?

   I think my design will be needed the least in the season of _____

   and zone ____ because _____

   _____

   _____.
