How To Make A Flower

Mystery Science | Mothers Day

1. Cut out a square along thick dashed lines.
2. Fold in half along thick black line so pattern is facing out.
3. Pull top corner with the sun until the edge meets the dark grey.
4. Pull top corner down until it meets bottom edge. Fold.
5. Cut along two dashed lines. Unfold.
6. Pull tip of each petal until it meets center circle. Fold repeat for all petals.
Special someone for a surprise. How to Make Your Flower Bloom:

1. Gently remove the flower from the card.
2. Remove tape from the back.
3. Place your flower with the petals facing up in a shallow bowl of water.
4. Watch closely and enjoy!

Dear [Name],

I made a flower that will bloom just for you.

Love,
