

## Lesson: How do you send a secret code?

---

<b>code</b>	a system of words, letters, or other symbols that stand for other words, letters, or symbols
<b>communicate</b>	to exchange information
<b>decode</b>	to take a code and change it to a different form that can be understood
<b>electricity (electrical energy)</b>	a form of energy, such as what usually powers light bulbs
<b>engineer</b>	a person who uses science to come up with solutions to problems
<b>inventor</b>	someone who comes up with something new, often an object or a way of doing something
<b>pattern</b>	something that happens again and again and again in a way that can be predicted
<b>sound</b>	vibrations that you can usually hear with your ears
<b>transfer</b>	to move from one place to another
