

## Lesson: What would happen if you screamed in outer space?

---

<b>air</b>	the invisible gas that surrounds the Earth
<b>eardrum</b>	a part of the ear that vibrates to help us hear sounds
<b>experiment</b>	a test used to discover new information about a question
<b>model</b>	a pretend version of something that scientists use when the real thing is too big, small, or complicated to work with
<b>vacuum</b>	an empty space without any air
<b>vibration</b>	a quick movement back and forth
