mystery science

Name: _____
Date: _____

When you turn on the faucet, where does the water come from?

Lesson Assessment

1. How do most people who don't live near lakes and rivers get their water? Explain.

_____

_____

_____

_____

_____

2. Pretend you have x-ray vision. You can see above and under the ground at the spot your team has chosen to dig a well. In the space below, draw these three things:

    1. The land — Is it flat? Hilly?
    2. The plants — Above ground and the roots underneath
    3. Your well — Include the water you think is underground
