*Stormy Skies*
# Performance Task

Name: _____

# Past Hailstorm Patterns

## Directions: Study your graphs to become an expert on one season. Then, answer these questions.

1. Which season is your data from? _____

2. Complete this table for your season.

|  | Zone A | Zone B | Zone C | Zone D |
|---|---|---|---|---|
| **Number of Hailstorms** |  |  |  |  |

3. Zone with the most hailstorms: _____ Zone with the fewest hailstorms: _____

4. How many more hailstorms fell in zone C than in zone A? _____

## Now, talk with the people that studied the **other** seasons.

5. Look at all of the data from every season. Where and when are the **fewest hailstorms?** *Zones* _____ *in the season of* _____

6. Complete this table for each season in **zone C.**

|  | Spring | Summer | Fall | Winter |
|---|---|---|---|---|
| **Number of Hailstorms in Zone C** |  |  |  |  |

7. In zone C, how many **more** hailstorms happened in spring and summer combined than in fall and winter combined? _____
