

Run for your life!

mystery science

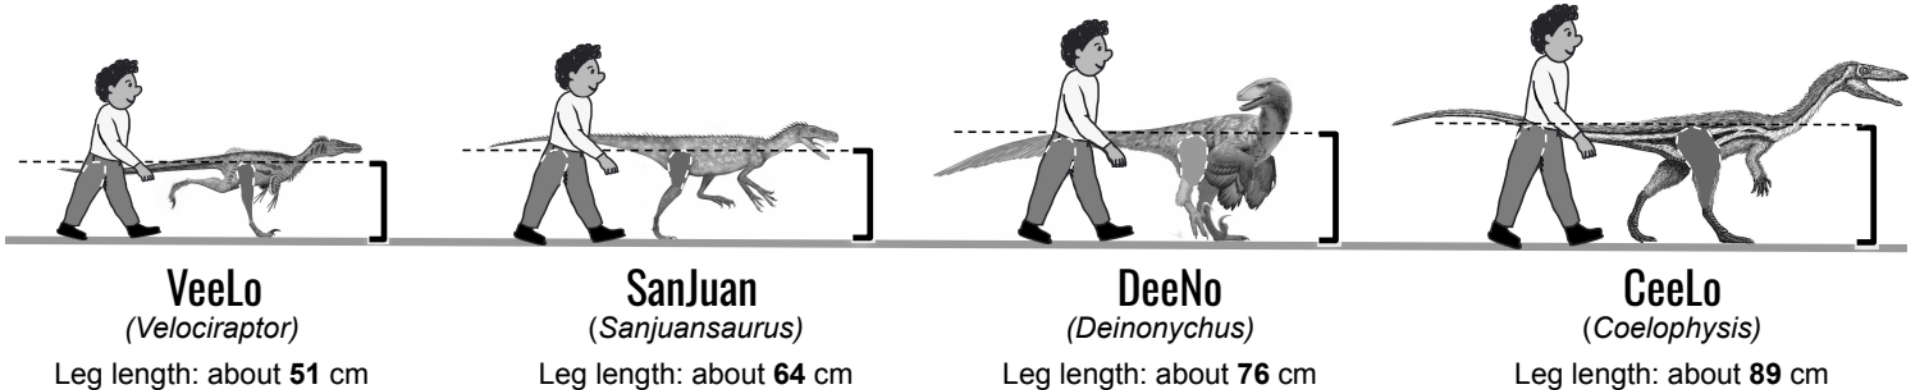

Can you outrun a dinosaur?

Name: _____

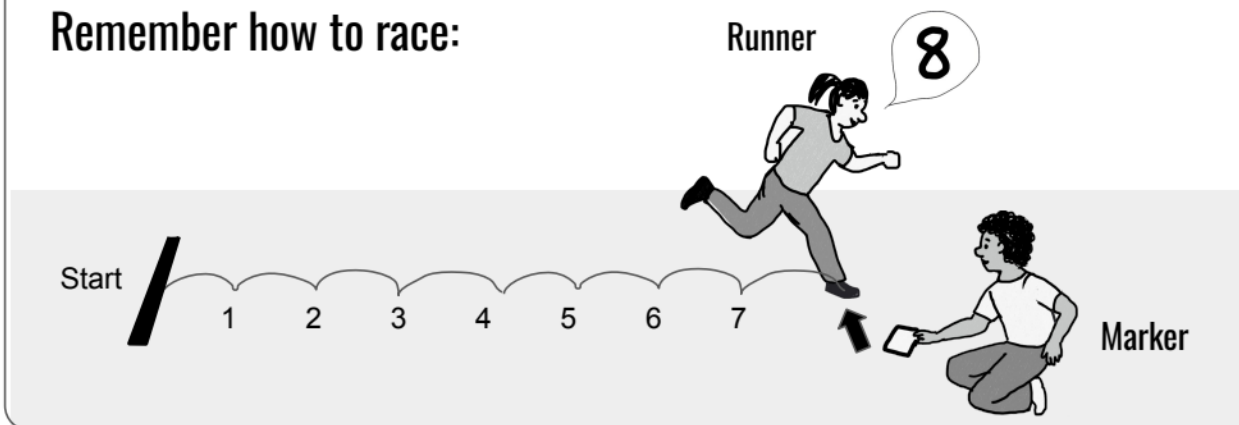

Find out which dinosaur you'll race:

1. Calculate your leg length: $(\frac{\text{number of whole ruler lengths}}{\text{number of whole ruler lengths}} \times 30 \text{ cm}) + \text{cm} = \text{cm}$

2. Circle the dinosaur that's your leg length or **less**:

Remember how to race:
