## Vocabulary

## Lesson: Where can you find whales in a desert?

claimto say or write an ideadeserta habitat that is usually hot and that gets very little rainevidenceinformation that can be used to support or reject an ideaforesta habitat with lots of treesfossilthe remains of a plant or animal that lived a very, very long time agograsslanda habitat with mostly grasses and very few treeshabitatthe place where an animal or plant livesmodela pretend version of something that scientists use when the real thing is too big, small, or complicated to work withobserveto pay close attention to somethingpolara habitat that is large area of salt waterquarrya large, deep pit that people remove rock fromtraitsomething you can observe about a living thing, such as the broad fins of a fish		
evidenceinformation that can be used to support or reject an ideaforesta habitat with lots of treesfossilthe remains of a plant or animal that lived a very, very long time agograsslanda habitat with mostly grasses and very few treeshabitatthe place where an animal or plant livesmodela pretend version of something that scientists use when the real thing is too big, small, or complicated to work withobserveto pay close attention to somethingoceana habitat that is large area of salt waterpolara large, deep pit that people remove rock from something you can observe about a living thing, such as the broad	claim	to say or write an idea
foresta habitat with lots of treesforesta habitat with lots of treesfossilthe remains of a plant or animal that lived a very, very long time agograsslanda habitat with mostly grasses and very few treeshabitatthe place where an animal or plant livesmodela pretend version of something that scientists use when the real thing is too big, small, or complicated to work withobserveto pay close attention to somethingoceana habitat that is large area of salt waterpolara habitat that is very coldquarrya large, deep pit that people remove rock fromtraitsomething you can observe about a living thing, such as the broad	desert	a habitat that is usually hot and that gets very little rain
fossilthe remains of a plant or animal that lived a very, very long time agograsslanda habitat with mostly grasses and very few treeshabitatthe place where an animal or plant livesmodela pretend version of something that scientists use when the real thing is too big, small, or complicated to work withobserveto pay close attention to somethingoceana habitat that is large area of salt waterpolara habitat that is very coldquarrya large, deep pit that people remove rock fromtraitsomething you can observe about a living thing, such as the broad	evidence	information that can be used to support or reject an idea
grasslanda habitat with mostly grasses and very few treeshabitatthe place where an animal or plant livesmodela pretend version of something that scientists use when the real thing is too big, small, or complicated to work withobserveto pay close attention to somethingoceana habitat that is large area of salt waterpolara habitat that is very coldquarrya large, deep pit that people remove rock fromtraitsomething you can observe about a living thing, such as the broad	forest	a habitat with lots of trees
habitatthe place where an animal or plant livesmodela pretend version of something that scientists use when the real thing is too big, small, or complicated to work withobserveto pay close attention to somethingoceana habitat that is large area of salt waterpolara habitat that is very coldquarrya large, deep pit that people remove rock fromtraitsomething you can observe about a living thing, such as the broad	fossil	the remains of a plant or animal that lived a very, very long time ago
modela pretend version of something that scientists use when the real thing is too big, small, or complicated to work withobserveto pay close attention to somethingoceana habitat that is large area of salt waterpolara habitat that is very coldquarrya large, deep pit that people remove rock fromtraitsomething you can observe about a living thing, such as the broad	grassland	a habitat with mostly grasses and very few trees
modelis too big, small, or complicated to work withobserveto pay close attention to somethingoceana habitat that is large area of salt waterpolara habitat that is very coldquarrya large, deep pit that people remove rock fromtraitsomething you can observe about a living thing, such as the broad	habitat	the place where an animal or plant lives
oceana habitat that is large area of salt waterpolara habitat that is very coldquarrya large, deep pit that people remove rock fromtraitsomething you can observe about a living thing, such as the broad	model	
polar a habitat that is very cold   quarry a large, deep pit that people remove rock from   trait something you can observe about a living thing, such as the broad	observe	to pay close attention to something
quarry a large, deep pit that people remove rock from   trait something you can observe about a living thing, such as the broad	ocean	a habitat that is large area of salt water
trait something you can observe about a living thing, such as the broad	polar	a habitat that is very cold
trait	quarry	a large, deep pit that people remove rock from
	trait
