

## **Future Hailstorm Prediction**

**Directions:** Use the hailstorm data from last year to make predictions for next year.

1. Use the hailstorm data you studied to make a prediction for next year. In which two seasons and in which zone do you think your design will be needed the most?

***Next year, I think my design will be needed the most during the seasons of \_\_\_\_\_ and \_\_\_\_\_, and in zone \_\_\_\_.***

2. Why do you think your design will be needed most in that zone during those seasons? Be sure to use data in your answer!

***I think this because last year, \_\_\_\_\_***  
\_\_\_\_\_  
\_\_\_\_\_.

3. In which season and in which zone do you think your design will be needed the **least**? Why?

***I think my design will be needed the least in the season of \_\_\_\_\_***  
***and zone \_\_\_\_ because \_\_\_\_\_***  
\_\_\_\_\_  
\_\_\_\_\_.
