Stormy Skies Performance Task

Name:	

Future Hailstorm Prediction

Directions: Use the hailstorm data from last year to make predictions for next year.

1.	Use the hailstorm data you studied to make a prediction for next year. In whatwo seasons and in which zone do you think your design will be needed the most?		
	Next year, I think my design will be needed the most during the seasons		
	of, and in zone		
2.	Why do you think your design will be needed most in that zone during those seasons? Be sure to use data in your answer!		
	I think this because last year,		
3.	In which season and in which zone do you think your design will be needed		
	the least? Why?		
	I think my design will be needed the least in the season of		
	and zone because
