Grade 3 - Unit: Animals Through Time - Mystery 3

Discussion Questions Can you outrun a dinosaur?

What can you figure out about these two animals, just by looking at their footprints? [Look at the picture on the slide]

Hint: Can you notice how many legs the animal walks on: two or four? How many toes it has? What shape feet it has?

Dinosaurs died out a long time ago. You can't race a living one. How could you figure out if you

could run faster than a dinosaur?
