Watery Planet Mystery 2: When you turn on the faucet, where does the water come from?	Name: Date:
End of Mystery Assessment  1. How do most people who don't live near lakes and rivers get their water? Explain.	

- 2. Pretend you have x-ray vision. You can see above and under the ground at the spot your team has chosen to dig a well. In the space below, draw these three things:
  - 1. The land Is it flat? Hilly?
  - 2. The plants Above ground and the roots underneath
  - 3. Your well Include the water you think is underground
