Spaceship Earth | Unit Starter

Date: _____ Your Ideas-Version #: _____

A black and white illustration of a night sky filled with stars of varying sizes. Below the sky is a landscape featuring rolling hills, several trees of different shapes, and a small body of water. In the center of the lower half, there is a white rectangular box containing a black upward-pointing arrow and the text "Looking North" in a bold, sans-serif font.

A diagram of the solar system. The Sun is a large yellow sphere on the left. The Earth is a smaller sphere in the center, showing continents and oceans, with a black line representing the equator. The Moon is a small white sphere on the right. Arrows point from labels to each object: 'The Sun' points to the Sun, 'Moon' points to the Moon, and 'You are here (star trails photo was taken here)' points to the Earth. The background is dark gray with many small white dots representing stars.

If you need more space for drawings or notes, use the back of this page.
