

MYSTERY
science
at home

We're here to help.

We know school closures and distance learning pose new challenges for teachers, students and families.

Mystery Science is a great tool for remote teaching, and we now have a **Google Classroom integration** and **new extension activities** designed for students at home.

Have fun & stay curious!

Mystery Science + Distance Learning

Shareable, no-login lessons

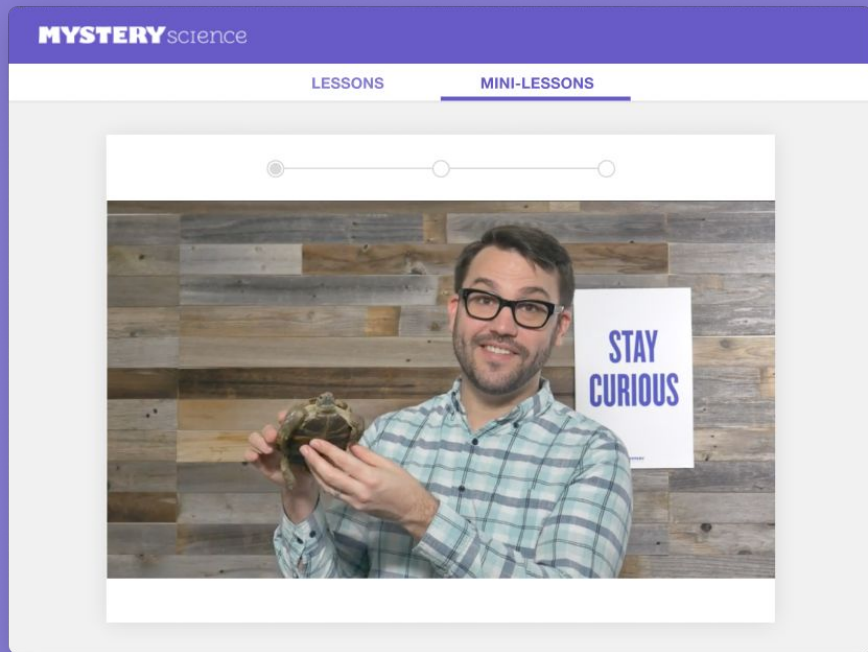

Share videos directly with students
—no student accounts necessary

Built-in narration by a master teacher

Engaging video lessons and activities led by Doug, our expert Science teacher

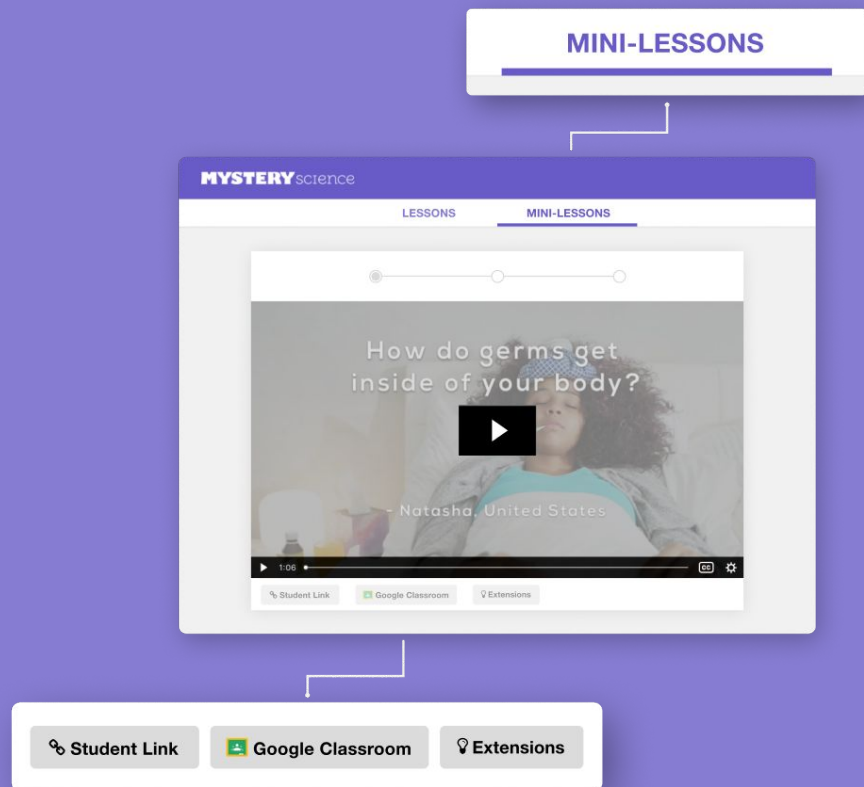

Assignable on Google Classroom

Digital handouts, assessments, at-home extension activities—all at your fingertips and ready to assign

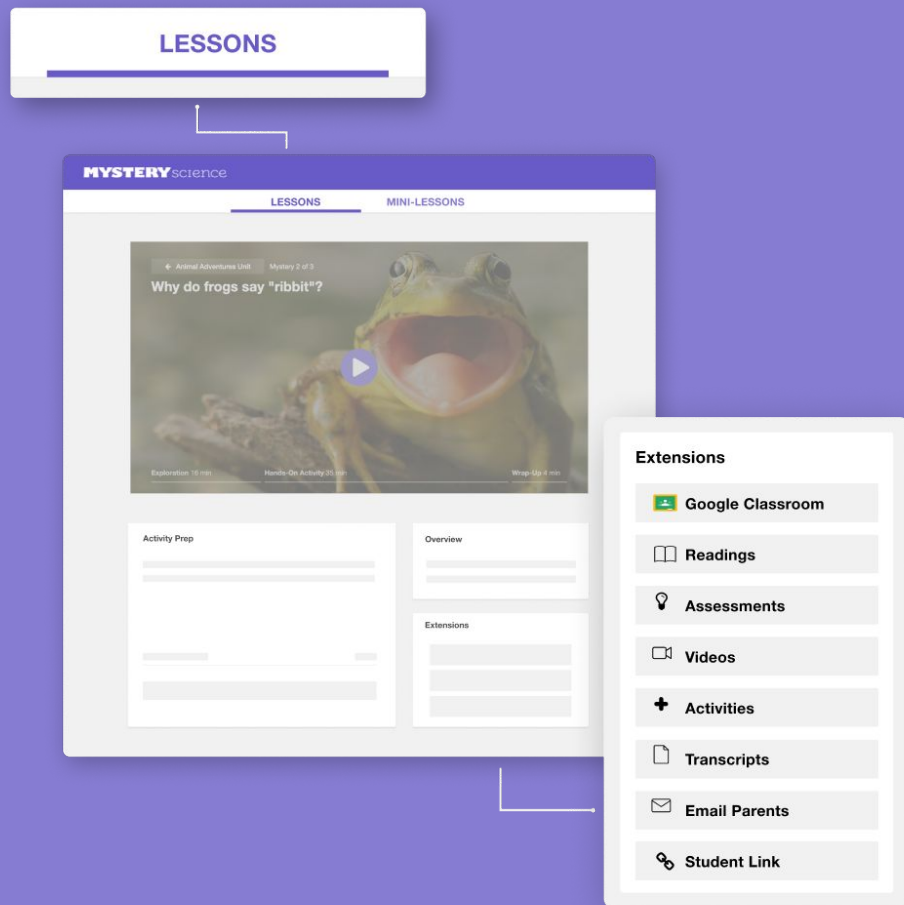

Mini-lessons are easy for students at home

- Short video lessons that answer real kids' questions
- Discussion questions to encourage reflection
- **NEW!** Extension questions and bonus activities
- **NEW!** Google Classroom integration

Hands-on lessons when students are ready for more

- Full, standards-aligned lessons + hands-on activities
- **NEW!** Digital assessments that collect student responses
- **NEW!** Digital handouts that students can fill in — no printing required
- **NEW!** Google Classroom integration

Ready to get started?

Here's how:

1. Choose a lesson.
2. Select **Google Classroom** or **Student Link**.
3. Assign lesson to students.

Go find a lesson:

Distance Learning How-To Guide

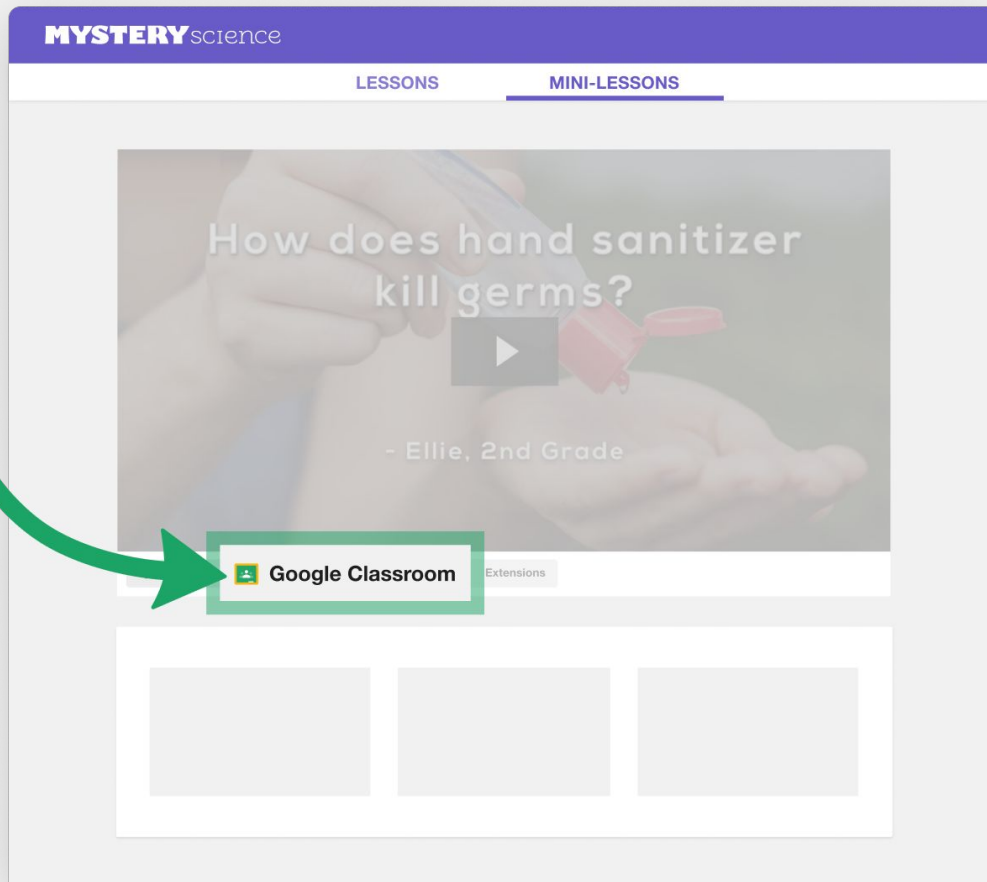

HOW TO ASSIGN

Mini-Lesson Videos

Click the **Google Classroom** button to quickly share videos with students.

Not using Google Classroom?

*No problem – simply copy and paste the **Student Link** to share the video.*

HOW TO ASSIGN

Mini-Lesson Activities

Click on **Extensions** to assign follow-up questions and simple, offline activities.

These questions are automatically added to the instructions when you assign them in Google Classroom.

Or, copy and paste them into any document, assignment or email.

The screenshot shows the MYSTERYscience website interface. At the top, there is a purple header with the logo "MYSTERYscience". Below the header, there are two tabs: "LESSONS" and "MINI-LESSONS", with "MINI-LESSONS" being the active tab. The main content area features a video player with a play button. The video title is "How does hand sanitizer kill germs?" and it is attributed to "- Ellie, 2nd Grade". Below the video player, there are three buttons: "Student Link", "Google Classroom", and "Extensions". The "Extensions" button is highlighted with a green box, and a green arrow points from it towards the text on the left. Below the buttons, there are three empty rectangular boxes, likely placeholders for additional content or assignments.

HOW TO ASSIGN

Lesson Videos

Click the **Google Classroom** button on the lesson page to share the video with students.

Not using Google Classroom?

*No problem – simply copy and paste the **Student Link** to share the video.*

The screenshot shows the MYSTERYscience website interface. At the top, there's a purple header with the logo and two navigation tabs: 'LESSONS' (which is active) and 'MINI-LESSONS'. Below the header, a large video player displays a video titled 'Where do clouds come from?' with a play button in the center. The video background shows a close-up of white, fluffy clouds against a blue sky. Below the video player, there are two side-by-side panels. The left panel is titled 'Activity Prep' and contains several horizontal lines representing text input fields. The right panel is titled 'Overview' and also contains horizontal lines. Below the 'Overview' section, there's an 'Extensions' section. In this section, the 'Google Classroom' button is highlighted with a green rectangular border. A large green arrow points from the right side of the image towards this button, indicating where to click to assign the video to a class.

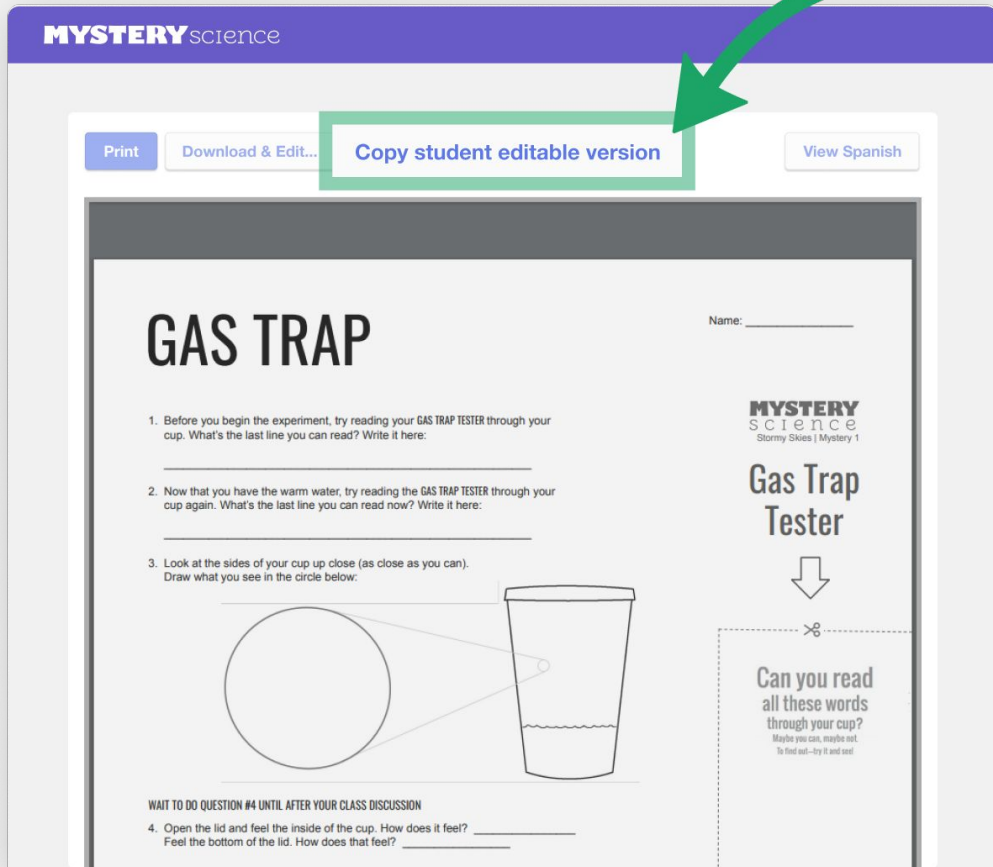

HOW TO ASSIGN

Digital Handouts

Students can type on editable documents as if they were writing on a handout.

Open any handout document, and click **Copy student editable version**.

This will save a copy of the document to your Google Drive to assign in Google Classroom.

The screenshot shows the MYSTERYscience website interface. At the top, there's a purple header with the logo. Below it, a navigation bar contains buttons for 'Print', 'Download & Edit...', 'Copy student editable version' (highlighted with a green box and a green arrow), and 'View Spanish'. The main content area displays a handout titled 'GAS TRAP'. The handout includes a 'Name: _____' field, three numbered instructions for an experiment, a diagram of a cup with a magnifying glass over a small circle inside, and a section titled 'Can you read all these words through your cup?' with a list of words: 'Maybe you can, maybe not. To find out—try it and see!'. The MYSTERYscience logo is also present on the right side of the handout.

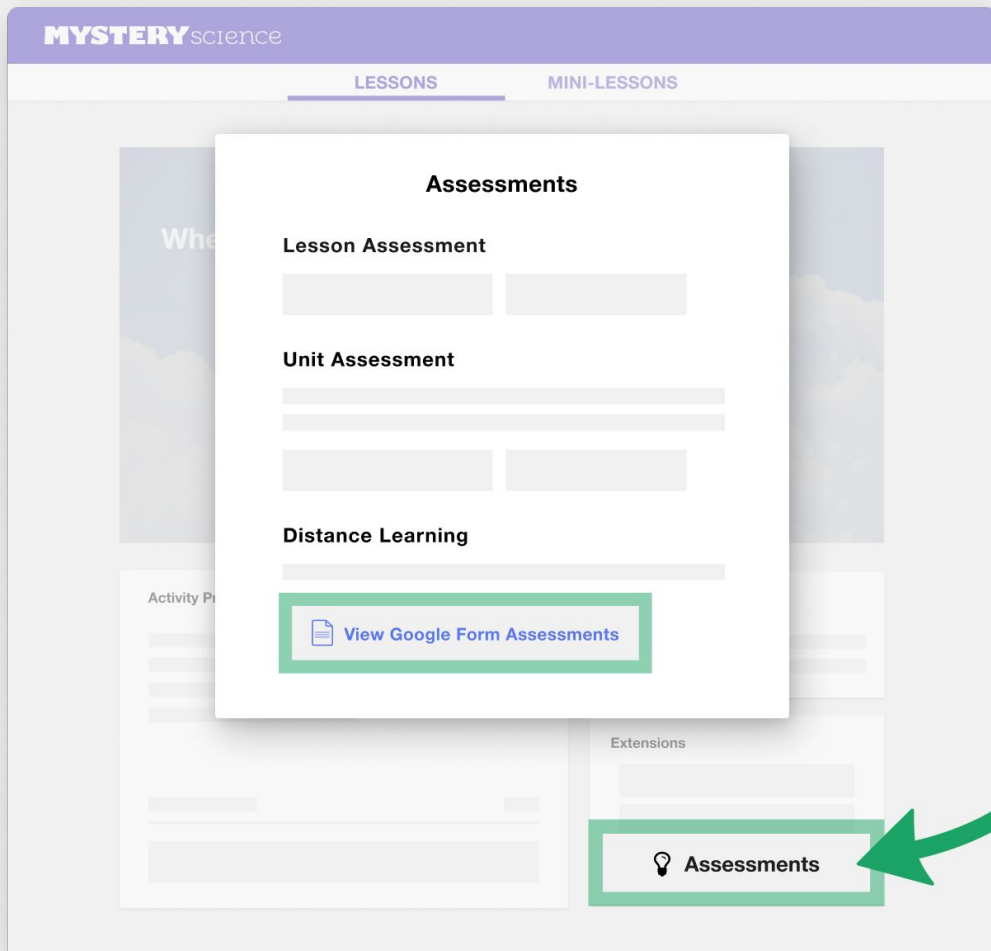

HOW TO ASSIGN

Google Forms Assessments

Click on **Assessments** (under Extensions on the lesson page).

Find Google Forms assessments under **Distance Learning**.

Or, click [HERE](#) to access all of our assessments in the Google Forms format.
