Design a Windproof House

1. WHAT'S THE PROBLEM?

The problem with our house is
(describe what you noticed when testing your house)
Why does it matter? Why is it important to fix it?

2. CREATE AND TEST YOUR FIRST DESIGN.

Design #1: Draw your design.

What happened when you tested				
Design #1?				

Your name:	Partner's name:	
-		

3. CREATE AND TEST YOUR SECOND DESIGN.

Design #2: Draw your design.

What happened when you tested	
Design #2?	

4. WHICH DESIGN WORKED BETTER AND WHY?

Design #1 / Design #2 (choose one) worked best because

Which one was easiest to build? Which one used the fewest materials? Which one do you think would last the longest?
