

Volcano Discoveries

1. Suppose you wanted to tell an explorer where to look for volcanoes. Check the box of the sentence you would choose.

- ☐ You can find just as many volcanoes in the middle of a continent as you can near the coast.
- ☒ You can find more volcanoes near the ocean than you can in the middle of the continent.

2. If you had to describe how the volcanoes on your map are arranged, what sentence would you choose?

- ☐ The volcanoes are scattered evenly across the map.
- ☒ The volcanoes are in groups near the coast.

3. What if you **wanted** a volcano to pop up in your backyard? Where would you choose to live and why?

Use information from your map to explain.

I would live near the coast in a spot where there are other volcanoes. Most of the volcanoes on our map are in groups on the coast.

mystery science

Could a volcano pop up where you live?
