

# Paragraph Structure

Name: \_\_\_\_\_

Date: \_\_\_\_\_

## The Iris

I. Unscramble the paragraph by identifying the topic sentence, detail sentences, and concluding sentence. Write a “T” (topic), “D” (detail), or “C” (concluding) next to each sentence.

### Paragraph Structure

#### Topic Sentence

Describes what the paragraph is about.

#### Detail Sentences

Give facts and information about a topic.

#### Concluding Sentence

Restates the main idea in a new way.

### Scrambled Sentences

**D** When there is bright light, it makes the pupil smaller.

\_\_\_\_\_ The iris is the colorful part of the human eye.

\_\_\_\_\_ The iris plays an important role in helping us see clearly.

\_\_\_\_\_ It controls how much light enters the eye.

\_\_\_\_\_ In dim light, it makes the pupil larger to let in more light.

2. Finish unscrambling the paragraph by recopying the topic sentence (“T”) and the concluding sentence (“C”).

### The Iris

\_\_\_\_\_ . It controls how much light enters the eye.

When there is bright light, it makes the pupil smaller. In dim light, it makes the pupil larger to let in more light. \_\_\_\_\_

\_\_\_\_\_ .
