

Lesson: Where's the best place to hide a treasure?

| | |
|----------------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| canyon | a deep hole in the ground formed over a long time by moving water |
| cliff | a high area of land with a side that is almost straight up and down |
| compass star (compass rose) | a drawing on a map that points to the four main directions (north, south, east, west) |
| east | one of four main directions; if you are facing north, it is to the right |
| feature | an important part of a place or thing |
| hill | a high area of land that isn't as tall as a mountain |
| island | land with water all around it |
| lake | a large area of water with land all around it |
| landform | a natural structure of Earth's surface, like a mountain or canyon |
| map | a picture that shows the features of a place and where those features are |
| mesa | a high area of land with a flat top and sides that are almost straight up and down |
| model | a pretend version of something that scientists use when the real thing is too big, small, or complicated to work with |
| mountain | a high area of land with steep sides |
| north | one of four main directions; when you face north, west is to the left and east is to the right |
| ocean | a large area of salt water that covers the Earth |
| plains | large areas of flat land with few trees |

Lesson: Where's the best place to hide a treasure?

| | |
|------------------|-------------------------------------------------------------------------|
| pond | an area of still water, larger than a puddle but smaller than a lake |
| river | a long, thin area of water that flows |
| south | one of four main directions; if you are facing north, it is behind you |
| valley | a low area of land between hills or mountains |
| waterfall | flowing water that falls from a tall place |
| west | one of four main directions; if you are facing north, it is to the left |
