

Lesson: How is an ice cube like a crayon?

freeze	when a liquid turns to solid, like when liquid water becomes solid ice
ice	water when it is a frozen solid
irreversible	cannot be changed back
liquid	a state of matter, such as water when you can pour it
material	what something is made of, like clay or cardboard
matter	anything that takes up space and has weight; can be in different forms such as solid, liquid, or gas
melt	when a solid turns to liquid, like when solid ice melts to liquid water
observe	to pay close attention to something
property	something you can observe about an object or material
reversible	can be changed back to how it was before
solid	a state of matter, such as water when it is frozen ice
states of matter	the different forms of matter that include solid, liquid, and gas
temperature	how hot or cold something is
